

# Etac Edge shower stool

 **etac**<sup>®</sup>

A height-adjustable, comfortable triangular space-saving shower stool that fits perfectly in a corner.

# Edge – a space-saving shower stool

Edge is a height-adjustable, comfortable triangular shower stool that fits perfectly in a corner. Thereby it takes up very little space in the shower. To vary the seat position, the stool can be turned so that a corner faces forward. The seat can also be set with a slight forward angle.

## Many functions

The versatility of Edge makes it the perfect shower stool. The seat design ensures a stable, safe and comfortable position. The stool is height-adjustable and it is also possible to set the height with a slight tilt, to facilitate standing up. Edge is available in two models, besides the standard Edge there is also a lower model.

## Safety

The legs of Edge are slightly angled outward to increase stability. Edge stands firmly on all three legs thanks to its built-in flexibility. Also the soft ferrules will always grip the floor.

## Easy handling

The light weight makes Edge easy to move around in the bathroom. The design also facilitates cleaning. Edge comes flat-packed and is easy to assemble without the need for any tools. Furthermore, Edge is stackable.

Edge shower stool
