PLANNING

When planning, note the following points:

- The COATLIFT is available in two adjustable widths, 56 - 66.8 cm or 76 - 116.8 cm.
- Electrical connection to be located in the cabinet or close to it.

INSTALLATION

- The wardrobe is to be anchored to the wall to prevent it tipping forwards.
- Fit the lift on the lift inside the wardrobe.
- Adjust the width on the clothes rail.
- The control unit is plugged into the wall socket
