The Tilt-in-Space ID Soft Wheelchair can be tilted and reclined into various positions to assist with pressure distribution, correct posture and maximum comfort. The wheelchair is available with two wheel sizes, 12" transit or 24" self propel.

## Superb Comfort, Style & Performance...

- » Multi-adjustable wheelchair designed to adapt to most needs of the users requirements
- » The wheelchair can be tilted and reclined to help the user maintain correct posture, as well as assisting with even pressure distribution
- » Offers maximum comfort for those spending longer periods of time in a wheelchair, and who may also need assistance with their posture
- » Infinite position adjustment of the backrest and seat angle which can be easily operated from the push handle and can be quickly adjusted
- » Frame design ensures the wheelchair is steady, whatever the backrest and seat angles are
- » Available with 24" self-propel or 12" transit wheels to suit users requirements
- » Height adjustable push handles to provide comfort for the attendant
- » Padded adjustable headrest with multi-positional ear cushions and elevating leg rests for additional support and pressure relief
- » Anti-tip wheels with integral stepper tube to aid use on kerbs
- » Long, curved adjustable armrests are fully padded for extra comfort and are easily detachable through a push button
- » Back rest reclines from 90° (vertical) to 120°
- » Adjustable height backrest and two choices of cushion height
- » Two seat widths are available - 39-44cm (15-17") and 49-54cm (19-21")
- » Multi-adjustable leg rests can be altered in width, height and depth of calf cushion
- » Suitable for use as a seat in a motor vehicle ("Crash Tested" to ISO 7176/19)
- » Weight capacity 135kg (21st)
- » Accessories available
