

## Product Description

The Oarsome Grips are engineered to work with your hands on the crutches, the most important, but most painful point of contact. Acting as your *shock absorber*, the Oarsome Grips *compress* when you put your weight on them, *taking the strain for you*, and then returning to their original position ready to take the strain again for you when you take your next step.

The Oarsome Grips sit over the top of your troublesome crutch handles, once fitted properly; your hands will start their journey to happiness again! We are very proud that the Oarsome Grips are *the only antibacterial hand grips* on the market, this means confidence and peace of mind for you and your hands.

## Testimonials

*"After just 10 days of using the Oarsome Grips I'm very impressed. Having torn my ankle ligaments and spent a number of weeks on crutches a good few years ago I have been seriously impressed. I'm not waking up with sore hands or wrists and there's absolutely no sign of blisters despite using them almost all day every day."*

**Jimmy, London**

*"Before using the Oarsome Grips people keep asking me if I'm in pain from my skiing injury but to be honest, my hands on crutches hurt far more. The Oarsome Grips arrived quickly and they are fantastic. Such a different sensation to crutching around on hard plastic, an enormous relief! And they fit perfectly."*

**Kellie, UK**

*"My husband purchased approx. 6 weeks ago a pair of Oarsome crutch grips and they have been fantastic for me. My hands are undoubtedly better as a result of being able to use these on my crutches"*

**Alison, UK**

*Absolutely brilliant. These Oarsome Grips really cut down the severity of the bruising you get in the palm of your hands. I was recommended these by a friend and I will certainly be spreading the word.*

**Dave, UK**

*I purchased a pair of Oarsome Crutch Grips, they are fantastic. I have just broken my ankle and have to use crutches for 6 weeks. My hands were so painful after the first day, I thought I would be house bound for the duration, but I did a bit of research on the internet and found your product. Wonderful. (I even hopped off to the Theatre the other night, Matthew Bourne's Swan Lake - fantastic!) I think they are 1,000% better than anything else on the market.*

**Lynn, UK**
