

POSTURELITE PNEUMATIC VALVE SYSTEM

Our support systems are self-inflatable and readily mould to the shape of your body using the specially designed comfort control valve.

- Quickly self-inflates without need to “blow it up” or use a pump.
- Conveniently adjusts at the touch of a button to provide comfort and support suited to an individual’s needs.
- Versatile for use in many situations and adaptable to suit different needs.
- Cost effective - durable quality products that deliver the benefits.

HOW THE SYSTEM WORKS
